Anguilla is a beautiful island located in the Caribbean. Besides its crystal clear waters, extraordinary vistas and world class accommodations, Anguilla has now also become a well renowned offshore jurisdiction.

Anguilla is a British overseas territory in the Caribbean. Like other British dependencies, Anguilla has its own government which practices English Common Law. The main difference with other jurisdictions in the area is that Anguilla is a ZERO tax location for everyone, including its residents. As a result of this, Anguilla has become one of the most flexible offshore jurisdictions.

The International Business Companies (IBC) Act of Anguilla, originally established and governed offshore corporate formations, was replaced and modernized in 2022 by the Anguilla Business Companies Act. This update grants total tax neutrality, high operational privacy, and rapid 24-hour online incorporation through the Commercial Registry Electronic System (CRES).

CRES allows companies to be incorporated instantly from anywhere in the world, 24-hours a day, 365 days a year. CRES also enables all other corporate registration activities and filings permitted under the relevant legislation to be undertaken online.

ANGUILLA
